<b>Year of establishment</b>	24 maja 1945
<b>General description of activity</b>	TUL is a one of the biggest public higher schools in Poland. The main tasks of Faculty of Civil the Engineering, Architecture and Environmental Engineering are education at the high level and scientific research in the domain of building engineering, architecture and environmental engineering. The faculty is also involved in highly specialized technical consulting and laboratory service for largely understood local building industry.
<b>Projects concerning construction (programme, title, duration, role: coordinator/partner)</b>	Faculty of Civil the Engineering, Architecture and Environmental Engineering participates in many European research projects developed in the frame of V and VI Framework Program or many bilateral agreements with European Universities. Our student and staff take part in many relative European mobility projects
<b>Relationship with /membership in organizations and associations</b>	
<b>Certificates and Awards</b>	Since 2006 Faculty of Civil the Engineering, Architecture and Environmental Engineering is classified by Ministry of Science and Higher Education as a first category university facultyTwo of CEAE laboratories, namely Laboratory of Building Physics and Building Materials and Laboratory of Building Materials and Structures are certified and accredited as legal scientific laboratory at the national level. These laboratories have also corresponding high quality notification issued by European Union (NANDO CPD).
