

# Innovation/Industrialisation Forum - Construction Cluster of the Basque Country

[www.regcon.org](http://www.regcon.org)

## General principles

- Active participation of all the agents of the value chain
- Creation of a meeting point for decision making.

## Vision

Be the context which, in collaboration with the Innovation Promotion organisms that exist in the Basque Country region, dynamizes and promotes the innovation in the regional Construction Sector.

## Values

- Industrialization of the construction processes
- R&D&I to optimize the products, processes, searching for new improvements
- Competitive surveillance of the sector

## Basque Country Region members in REGCON

The REG CON project "Support action for innovation driven clusters in construction. Regional approaches, multi-stakeholder engagement and cross regional co-operation" is financially supported by the European Commission under the Basque European Commission Framework Programme (Capacities, Regions of Knowledge)

FP7-REGCON-2009-1 - Contract number: 202081
